Dear Sue:

Congratulations to you and the entire Studio Place Arts staff in celebrating twenty years of making visual arts accessible to all. It is clear that Studio Place Arts is a critically important resource for artists and community members alike in central Vermont. You have done a wonderful job providing artists access to classes and workshops, as well as giving them the chance to display their works in public exhibitions.

I am pleased to join with your colleagues and the entire Barre community in celebrating this milestone and wish you all the best in the years ahead.

Sincerely,

A handwritten signature in blue ink that reads "Bernard Sanders".
